Technical Skills

Frontend

HTML 5
CSS 3
Bootstrap 5
JavaScript

Object, Array, Function
Map, Set
DOM
Local Storage

Backend

C#

ASP.NET
ASP.NET MVC
ASP.NET Web API
Mudblazor
Visual studio[IDE]

Core Java

OOPS
Data Structure & Algorithms
Exception Handling
Collections
JDBC [Maven]
Eclipse[IDE]

Database

SQL

DDL,DML,DCL,TCL,DQL
Stored procedure

Oracle

Objective

Seeking a challenging career in a reputable organization that offers opportunities for personal and professional growth by utilizing my technical skills and thereby enhancing my knowledge about new and emerging trends in the IT sector.

Education

KGISL-IIM	2023
Master Of Computer Application	75.55%
CMS-College of Science And Commerce	2020
BSc-Mathematics	65.50%
Govt.Hr.Sec.School	2017
HSC-Higher Secondary School	78.08%
Govt.Hr.Sec.School	2015
SSLC	93.08%

Course

CORE JAVA TRAINING AT SMARTCLIFF

Duration **12-July-2023 to 23-October-2023**

Acquired hands-on experience in Core Java, Jsp and Maven, utilizing Oracle Database, as well as proficiency in HTML, CSS, Bootstrap, and Javascript

Internship

NEXUS INFO **15-Dec-2023 to 17-Mar-2024**

Worked closely with the development team to contribute to the design, development, and implementation of web applications. Assisted in front-end development tasks, including creating responsive user interfaces using HTML5, CSS3, Javascript and Bootstrap.

BYVAL TECH **30-April-2024 to Present**

Full-stack trainee at Byval Tech, where I am learning HTML, CSS, JavaScript, and Bootstrap for front-end development, along with SQL for database management. My backend training includes C# and .NET, utilizing the MudBlazor framework, while I also study REST APIs and MVC architecture. Throughout my time here, I have developed a chatbot for a do something organization project and contributed to an HRM management system project.

Area of Interest

Software Development

Experience

Production Supervisor at MRF Tyres from 2020 to 2021.

Certificates

Java Programming Course
- SWAYAM

HTML CSS & Sql Course
- Coursera

Projects

Developed a User Management project utilizing Java and JDBC with Maven, integrated with an Oracle Database. This project is console-based.

Developed a web page Rental Bike Management System using HTML, CSS, Bootstrap, and JavaScript.

Developed a chatbot module for the Do Something Organization project at Byval Tech

Current Project

currently developing a Trainee Management System using MudBlazor, SQL, HTML, CSS, JavaScript, Bootstrap, REST API, and the MVC architecture. The system features three user roles: Trainee, Team Leader (TL), and HR. The project includes modules for daily reports, course study, course addition and deletion, assessments, performance views, performance uploads, and report generation. The UI is complete, and now working on implementing the functionalities.
